To improve communication with the citizens of Walnutport, the Walnutport Authority and the Borough of Walnutport have collaboratively purchased a mass notification system called RAVE ALERT. What this system does is allow representatives from both agencies send out a message to the citizens that have registered with the program, i.e. a water leak at a specific area, snow emergency, meeting reminder, etc.

As previously mentioned, this will only work for citizens that register with the system. You may register either by the following URL address or scan the following QR code with your mobile device. Once you go to the site, just answer all the questions and then you will receive notification that you are registered.
